

It took 74 people to put a smile back on my face.

What's in a smile? Well in Jenny's case, there were 32 nurses. Right there with her at every step of her recovery. Through many hours of reconstructive surgery. Days of rehabilitation. Weeks of physiotherapy. And months of speech therapy. If you're interested in nursing or returning to nursing, you'll find the NHS is changing. Providing financial support during training, greater career progression

and more flexible working conditions including access to childcare and part-time opportunities. Plus the pay is getting better. The starting salary of a newly qualified full-time nurse is now at least £16,005 (in inner London at least £19,873 p.a.) and a pay increase is due from April 2003. Call us today on **0845 60 60 655** or go to **www.nhs.uk/careers**

Join the team and make a difference.

The NHS is working towards equality of opportunity for all
